Habeebat Mas'ud

hmasu072@uottawa.ca | (613) 716-9517 | Ottawa, ON | LinkedIn |Github

EDUCATION

University of Ottawa **April 2028**
B.A.Sc., Electrical Engineering and Computing Technology *Ottawa, ON*
Relevant Coursework: Computer Architecture I & II (microprocessors, timing), Digital Systems I, Circuit Theory I
Internship Availability: May 2026 – August 2026

PROJECTS

Personal portfolio website: https://habeebatmasudportfolio.netlify.app/ | HTML, CSS, Netlify
- Developed and deployed a portfolio website showcasing engineering projects and technical work.

Traffic Light Simulator — uOttaHack 8 | QNX
- Built a traffic light simulator in a team-based rapid prototyping environment using QNX.

Restaurant Management App | Java
- Collaborated in a team of 4 to design a restaurant management application for a software engineering course.

Circuit Design & Hardware Debugging | Multisim, Quartus, Oscilloscopes
- Designed and simulated analog and digital circuits analyzing DC, AC, and transient responses and implemented digital logic with timing analysis.

WORK EXPERIENCE

CEED uOttawa **Jan 2026 – Present**
GNG1103 Project Management Volunteer *Ottawa, ON*
- Supported project planning, coordination, and documentation for first-year engineering design teams, assisting with timelines, requirements clarification, and progress tracking.

ActionLab **May 2025 – Present**
Construction Volunteer *Ottawa, ON*
- Executed specification-driven tasks and validated work against technical requirements.
- Interpreted technical drawings and instructions to execute accurate physical implementations.
- Gained hands-on experience working independently with tools while maintaining safety and quality standards.

JOEY Restaurants **Mar 2023 – Present**
Chef de Partie *Ottawa, ON*
- Managed high-throughput operations under pressure; trained and mentored 10+ team members
- Maintained strict procedural and safety standards in fast-paced environments.

SKILLS

- **Technical Skills:**
  - **Languages:** C++, Python, Java, Go, HTML, CSS
  - **Hardware:** Digital circuit analysis, digital systems design, hardware debugging, timing analysis
  - **Tools:** Multisim, Quartus, oscilloscopes, function generators
  - **Systems:** Arduino (basic), Linux (basic), QNX (basic), STM32 (basic), ESP32 (basic)
- **Soft Skills:** Leadership, Resilience, Problem-solving, Communication, Teamwork
- **Interests:** Reading, Cooking, Puzzles, Writing poetry, Learning languages.

ACTIVITIES & AFFILIATIONS

University of Ottawa Engineering Students Society - *General Member* **Sep 2022 – Present**
ColorStack - *Member* **Mar 2025 – Present**
University of Ottawa Centre of Entrepreneurship and Engineering Design - *Volunteer* **Sep 2023 – Dec 2023**
